## CREATE IBM WATSON IOT PLATFORM AND DEVICE

The screenshot shows the IBM Watson IoT Platform dashboard. The main heading is "Browse Devices". Below it, there are two buttons: "All Devices" and "Diagnose". A text block states: "This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API."

Below the text, there is a search bar labeled "Search by Device ID" and a "Device Simulator" toggle switch. The table below shows the following data:

Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location
13517860	Disconnected	SSR	Device	18 Nov 2022 11:47	

At the bottom of the table, it says "Items per page 50" and "1-1 of 1 item". The bottom status bar shows the weather as "31°C Haze" and the time as "03:21 PM 18-11-2022".
